Ah Yeah

Will Sparks

Where did you come from?
Am I the only one that you make feel this way?
Where did you learn from?
Nothin' you were doing can be taught these days
You shine with picture perfect beauty, show it off
Show it show it off, let 'em see you show it off
Tell me how you doing it to me, showing off
Let 'em see you show it off, with the whole world going offI don't think you know you're that fine
Making 'em all beg falling to their knees
You know you're blowing my mind
Make 'em all die fall to their kneesWhere that walk come from?
How you do it keep me so mesmerized
You may be that one
With a body like that you would start a riotYou shine with picture perfect beauty, show it off
Show it show it off, let 'em see you show it off
Tell me how you doing it to me, showing off
Let 'em see you show it off, with the whole world going offI don't think you know you're that fine
Making 'em all beg falling to their knees
You know you're blowing my mind
Make 'em all die fall to their kneesAh yeah
