

# I Can Be

## Aaliyah

Maybe Im just wrong, feeling the way I do  
Thoughts indecent, want to propose them to you  
I know you have a girl, I dont want to tie  
When your free one night, just make those hours mine I can be the other woman in your life  
I can be the other reason you're out at night  
I can be all the things you thought she might  
I can be on the side that would be alright, alright, alright Love just aint my thing, the hassle you might be  
Enough for two or more, don't hop to me in need  
Fine like expensive wine, drunk off one glass of you  
I think more might be too much so weekends for me are cool I can be the other woman in your life  
I can be the other reason you're out at night  
I can be all the things you thought she might  
I can be on the side that would be alright, alright, alright I can be the other woman in your life  
I can be the other reason you're out at night  
I can be all the things you thought she might  
I can be on the side that would be alright, alright, alright Alright  
Alright  
Alright
