Car_(For Andy Capps)

[Built to Spill](#)

You get the car, I'll get the night off
You'll get the chance to take the world apart
And figure out how it works
Don't let me know what you find outI need a car, you need a guide, who needs a map?
If I don't die or worse, I'm gonna need a nap
At best I'll be asleep when you get backI wanna see it when you find out what comets, stars, and moons are all
about
I wanna see their faces turn to backs of heads and slowly get smaller
I wanna see it now
I wanna see it nowI want specifics on the general idea
I wanna think what I should know
I want you to do me what to showI wanna see the movies of my dreams
I wanna see the movies of my dreams
I wanna see the movies of my dreams
I wanna see the movies of my dreamsI wanna see it when you get stoned on a cloudy breezy desert afternoon
I wanna see it untame itself and break its owner
I wanna see it now
I wanna see it now
