

# Samson

## The Statler Brothers

Samson, I told you  
To stay far away and just make your body right  
Delilah, she tricked him  
And took all his strength and turned him into the light  
He's lost now  
So lost now  
Everything he stood for has come into the light  
Oh my god, what I'd give if I just had enough (just had enough)  
Hold him tight, grab a sword, I'll get you  
Oh my god, what I'd give if I just had enough (just had enough)  
What you waiting for? What you waiting for? What you waiting for?  
Get up and rise!  
Build up your power  
And pull down those buildings and make your body right

Delilah, she cut off your hair  
But it's nothing your gaining  
You're fighting light, fighting light, fight light  
Oh my god, what I'd give if I just had enough (just had enough)  
Hold him tight, grab a sword, I'll get you  
Oh my god, what I'd give if I just had enough  
What you waiting for? What you waiting for? What you waiting for?  
Get up and rise!  
You've been deceieved by the one who's the love of your life  
And it has changed, now you're strong so just get up and rise  
Oh my god, what I'd give if I just had enough (just had enough)  
Hold him tight, grab a sword, I'll get you  
Oh my god, what I'd give if I just had enough  
What you waiting for? What you waiting for? What you waiting for?  
Get up and rise!
