Scent Of A Woman

Cheap Trick

Now woman, scent of a womanA man don't add up to much, next to a woman
A man can't ever forget the taste of a woman
A man is half the test, a man is half the best
A man can't understand the reasons whyA man's just a day in the life of a woman
Just a few minutes a night to a woman
See what a woman can do
To the man inside of you
It's more than the sum of the sun and the moonWell a man is a man is a hell of a man
A man ain't a man in a one night stand
A man just don't stack up next to a woman
A man can't see what a woman can do
A man is no man hiding next to you
A man don't add up to much next to a woman
Oh, the scent of a womanThe world would never be, except for a woman
It's hard for a man to see what makes a woman
Even harder to impress, cause she expects the best
She never makes it easy to pass the testWell a man is a man is a hell of a man
A man ain't a man in a one night stand
A man just won't stack up next to a woman
A man can't do what a woman can do
A man is not a man lying next to you
And man will just give up next to a woman
Oh yeah, here she comes now
(here she comes now, she comes now, here she comes now)
Here she comes now
(here she comes now, she comes now, here she comes now)Well a man is a man is a hell of a man
A man ain't a man in a one night stand
A man just won't stack up next to a woman
A man can't do what a woman can do
A man is a man if he can get to you
All a man wants to do is get to a woman, yeah[Repeat: x16]
Yeah yeahYeah, the scent of a woman
