

The Quit

Flip Grater

I'm quittin' my life, cold turkey
I'm saving up for a spell in a spa on a beach
Far from your reachI'm quittin' my life cold turkey
I won't be here when you make it back to our home
You'll be on your ownEven if it takes a long time
For my hands to stop shaking
Even if it's harder than I thought it would be
It's what I need
I'm quitting my life cold turkey
It's the only way out for a junkie like me
To finally be freeEven if it takes a long time
For my hands to stop shakin'
Even if it's harder than I thought it would be
It's what I needinstrumental part
Even if it takes a long time
For my hands to stop shakin'
Even if it's harder than I thought it would be
It's what I needI'm quittin' my life cold turkey
I'm saving up for a spell in a spa on a beach
Far from your reach
