

# Already There

## Rochelle Rochelle

From where I'm standing  
Lord it's so hard for me to see  
    Where this is going  
And where You're leading me  
    I wish I knew how  
All my fears and all my questions  
    Are gonna play out  
    In a world I can't control  
        Oh, woah  
    When I'm lost in the mystery  
    To You my future is a memory  
        Cause You're already there  
        You're already there  
    Standing at the end of my life  
        Waiting on the other side  
        And You're already there  
        You're already there  
        woah, woah, woah, woah  
    From where You're standing  
    Lord, You see a grand design  
        That You imagined  
    When You breathed me into life  
        And all the chaos  
    Comes together in Your hands  
        Like a masterpiece  
        Of Your picture perfect plan

When I'm lost in the mystery  
To You my future is a memory  
    Cause You're already there  
    You're already there  
    Standing at the end of my life  
        Waiting on the other side  
        And You're already there  
        You're already there  
        One day i'll stand before you  
    And look back on the life I've lived  
        I can't wait to enjoy the view  
        And see how all the pieces fit

One day I'll stand before you and  
Look back on the life I've lived  
I can't wait to enjoy the view  
And see how all the pieces fit  
One day I'll stand before you  
Look back on the life I've lived  
Cause You're already there  
You're already there  
When I'm lost in the mystery  
To you my future is a memory  
Cause you're already there  
Already there  
Standing at the end of my life  
Waiting on the other side  
And you're already there  
You're already there  
You're already there
