

Pleasin' Each Other

Bonnie Raitt

You remind me, you remind me
That it's a trick to know you
I don't even know
How, I fell in love with you
Was it your eyes, or was it your clothes
Was the way you greeted me when the sun rolls, the sun rolls I was lonely when I first called you
We were kids just foolin' with lovin'
You took me in
And you didn't even know me or my games 'Cause I was out on the road, acting a lady
I was with him for one night for some love and a song
Then you came along, you don't care about money
You don't care about time
And our love just keeps rolling, rolling along I said, "Hey, don't you worry
'Cause we can get along"
If were pleasin' each other
Pleasin' each other, pleasin' each other
Can't be wrong 'Cause I was out on the road, acting a lady
I was with him for one night for some love and a song
Then you came along, you don't care about money
You don't care about time
And our love just keeps rolling, rolling along I said, "Hey, don't you worry
'Cause we can get along"
If were pleasin' each other
Pleasin' each other, pleasin' each other
Can't be wrong
Pleasin' each other
Pleasin' each other, pleasin' each other
Can't be wrong, can't be wrong
