

Just One More Thing

Sara Groves

There's always just one more thing
There's always another task
There's always, I just have
One more small favor to ask Everything is urgent
And everything is now
I wonder what would really happen
If I stopped somehow I'll be there in a minute
Just a few places to go
You wake up a few years later
And your kids are grown Everything is important
But everything is not
At the end of your life your relationships
Are all you're got And love to me is when you put down
That one more thing and say
I've got something better to do
And love to me is when you walk out on
That one more thing and say
Nothing will come between me and you
Not even one more thing There will never be an end to
The request upon your time
It's your place to stand up and tell the world
You've got to rest awhile And everything is important
But everything is not
At the end of your life your relationships
Are all you've got And love to me is when you put down
That one more thing and say
I've got something better to do
And love to me is when you walk out on
That one more thing and say
Nothing will come between me and you
Not even one more thing Just one thing, just one thing
Just one thing, just one thing
Just one more thing
Just one thing, just one thing
Just one thing, just one thing
Just one more thing Be there in a minute
Be there in a minute
Just one more thing
