Let's Make A Baby King

BlueGrace

Once upon a Christmas morning
There was a pretty little baby boy
It seems like I remember sadness
Mingling in the joyFor Mary saw the future
And the sadness it would bring
And that's when Mary started crying
When she heard the angels singLet's make a baby king
Let's make him Lord of all
Let's give him everything
Let's make a baby kingNow, you remember little King David
He's the little baby's kin
He's cousin to the man named John
And I know you all remember himAnd John said, let's get ready
The Herald Angels sing
'Cause this old world sure needs to know
The good news that I bringLet's make a baby king
Let's make him Lord of all
Let's give him everything
Let's make a baby king, wellLet's make a baby king
Let's make him Lord of all
Let's give him everything
Let's make a baby kingNow we could use a revolution
The world is turned upside down
We need a new direction
We've got to turn this whole thing aroundAnd we need a Lord to guide us
To teach us wrong and right
And we need a lamb to lead us
Into the land of lightLet's make a baby king
Let's make him Lord of all
Let's give him everything
Let's make a baby kingLet's give him everything
Let's make a baby king
