Love Y'all More

Mobb Deep

hey yo, check this out to the take in the pain, strong in alone
we love ya all cause yo all love us, we love y'all more
take in the pain, strong in alone
we love ya all cause yo all love us, we love y'all more, ah
we love you more, we love you more
take in the pain, we gonna remain strong, we do these songs for you
cause we love y'all, love us back and we love y'all more
well well, damn it to hell fuck this ...
we have been all scratch, recharging the batteries
had to regroup, reboot the system, press reset
a fresh start right from where we started at
we only go forward we never go back
but sometimes you gotta step outside to look in
got an eagle eye view and a vulture's mentality
a poor man's lifestyle and a rich man's salary
yeah that new shit you need to get with the time
the infamous life and time the havoc and peak
...music substance this over ... shallow
feel it from the speakers down to your bone marrow
see the audience is my love and i won't be a liar
if i ain't say i love most of lil bit of fire
but here, take my hand and we gonna keep it place in hot
the hating our relationship never stop
take in the pain, strong in alone
we love ya all cause yo all love us, we love y'all more

take in the pain, strong in alone
we love ya all cause yo all love us, we love y'all more, ah
we love you more, we love you more
take in the pain, we gonna remain strong, we do these songs for you
cause we love y'all, love us back and we love y'all more
yeah, i feel so alive, like it's over time
i beat the buzzer, rediscover the hunger 5 last of a dying breed
still in the jungle where the lions be
so you know right where to find me on a corner or the office
mob bosses, ... i talking cause this sour got his coffin
my swag got him nauseous, hurry get him the ... key
home i gotta going, niggers in china ...get money
gotta fed his ... for this ... short film while we make movies

repeat my lips, read my lips, we got clips to heat your spit
don't give a fuck about jealousy and female feelings
you know that i be knowing gotta put them where the dome is
they ... like a bunch of locusts, so i'm so focus
i leave these niggers dead where they stand
these niggers ...
take in the pain, strong in alone
we love ya all cause yo all love us, we love y'all more
take in the pain, strong in alone
we love ya all cause yo all love us, we love y'all more, ah
we love you more, we love you more
take in the pain, we gonna remain strong, we do these songs for you
cause we love y'all, love us back and we love y'all more.
