

VVV

Baby Strange

when she hit it felt like my birthday
I never knew I'd feel so hot for this
we try to love each other when we're fucking one another

I'm in pain
she just violates me
violates me
violates me violates me
when she hit there was no one around me

I never knew I'd feel so high from this
we try to love each other when we're touching one another

I'm in pain
she just violates me
violates me
violates me violates me
violates me violates me
violates me violates me

I'm not sick I'm just tryna find a new fill
I never knew I'd get so much hate for this
and now we love each other
we're holding one another

I'm in pain
so please violate me
violate me
violate me violate me
violate me violate me
