

Cotton Fields

Charley Pride

When I was a little bitty baby my mommy would rock me in the cradle
In them old cotton fields back home

When I was a little bitty baby my mommy would rock me in the cradle
In them old cotton fields back home

Well when of them cotton bolls get rotten you can't pick very much cotton
In them old cotton fields back home

Yes it was down in Louisiana just about a mile from Texarkana
In them old cotton fields back home

When I was a little bitty baby
Yes again in them old cotton fields back home

Well in them old I said cotton fields back home
