Sound Of Love

Press Play

See the children play the ball see them play along the hall
It makes me cry to see them smile
I see the moon, I see the sky, I see reflections in my eyes
And there's no one to share my life
I need a life to go my way
So every night I pray
Just give me someone for my life
I feel a clown people try to play me down
And there's one thing I never found
The sound of love
See the old man walk the lane, see him walk along in pain
It makes me cry to see them smile
I watch the moon, I watch the sky, I see reflections in my eyes
And there's no one to share my life

I need a life to go my way
So every night I pray
Just give me someone for my life
I feel a clown, people try to play me down
And there's one thing I never found
The sound of love
The sound of love
Everybody loves the sound of love
Everybody loves the sound of love
Everybody loves the sound of love
Everybody loves the sound of love
Everybody loves the sound of love
Everybody needs the sound of love
