

Over the Garden Walls

Indian Summer Jars

Disclaimer: I looked for a super long time and couldn't find these lyrics any where! If any of these are wrong please, please let me know!!!

It can be trusted

Before we met here

We were the same people

We had a vision

Vision gets broader

When you love another

From a million miles away, there was just way way, too much space
there was just way way, too much space

same five fingers tug

pulling me under, under

still going deeper

same five fingers tug

pulling me under, under

still wanna know what's

over (x9) oh

i can forgive you

for runnin' away

there was never an agreement made
one that promised me you would stay

i can be humble

without being weak

and after a whole long year goes by

i finally just stopped wonderin' why

oh i finally just stopped wonderin' why

same five fingers tuggin'

pullin' me under under

still goin' deeper

same five fingers tuggin'

pullin' me under under

still wanna know what's

over (x9) oh

same five fingers tuggin'

pullin' me under under

still goin' deeper

same five fingers tuggin'

pullin' me under under

still wanna know what's

over (x9) oh
