

# Once I Flew

## White Town

Once I flew  
And it made my fingertips sing  
I was more like a God than a King  
Now I can't believe that was trueOnce I flew  
Though you don't believe me I know  
You look where I'm standing now  
You can't believe I left the groundLook up to the bright blue sky  
Can't you feel life passing by?  
If you could, wouldn't you  
Try to soar over everything?  
All the pain this world can bring  
Once I flew now I've lost my wings  
Now I'm down here with you  
Now I'm down here with youOnce I flew  
And the angels were my friends  
They would grant my every whim  
Now I can't believe that was trueOnce I flew  
Though it's easy to forget  
I don't seemed to have managed yet  
And I don't think I ever willLook up to the bright blue sky  
Can't you feel life passing by?  
If you could, wouldn't you  
Try to soar over everything?  
All the pain this world can bring  
Once I flew now I've lost my wings  
Now I'm down here with you  
Now I'm down here with youAnd in my dreams I am happy again  
You're in my arms and we're flying  
Again, flying away
