The End

Pearl Jam

What were all those dreams we shared
those many years ago?
What were all those plans we made now
left beside the road?
Behind us in the roadMore than friends, I always pledged
cause friends they come and go
People change, as does everything
I wanted to grow old
I just want to grow oldSlide up next to me
I'm just a human being
I will take the blame
But just the same
this is not meYou see?
Believe...I'm better than this
Don't leave me so cold
I'm buried beneath the stones
I just want to hold on
I know I'm worth your loveEnough...
I don't think
there's such a thingIt's my fault now
Having caught a sickness in my bones
How it pains to leave you here
With the kids on your own
Just don't let me goHelp me see myself
cause I can no longer tell
Looking out from the inside
of the bottom of a wellIt's hell...
I yell...But no one hears before I disappear
whisper in my ear
Give me something to echo
in my unknown future's earMy dear...
The end
comes near...
I'm here...
But not much longer.
