Some Call It Magic

Raven Symone

Some call it magic
The things I see
And I don't understand it
Why it happens to me
Some call it magic
And I don't know how
But I know that I have it
And it all works out

[Verse 1:]
I've got my family and my friends with me
They the only ones who know my secret (only they do)
Trynna find a way bring it out and say
That you know you're special and believe it (stay true to you)

[Chorus:]
Some call it magic
The things I see
And I don't understand it
Why it happens to me (ohhh)
Some call it magic and I don't know how
But I know that I have it
And it all works out

[Verse 2:]
My girl Chelsea, my boy Eddie
They help me in and out a situation (since the future I see)
But I understand
It's part of who I am
I don't have to give an explanation (i'll just be me)

Some call it magic (some call it magic)
The things I see
And I don't understand it
Why it happens to me (why it happens to me)
Some call it magic
And I don't know how
But I know that I have it (know that I have it)
And it all works out

See the future through my eyes
I can't control it
But it all seems to work out right
Cause there's a reason for everything
And I know with my powers and dreams future looks good to me
Ooohhh uhhh

[speak:]
some may call it magic
But I don't know it's just a special gift that I have
It runs in my family (some call it magic)
Gets me to trouble sometimes but you know
My friends are there for me so it's kinda cool

Some call it magic
The things I see (ohhh)
And I don't understand it (I don't understand)
Why it happens to me
Some call it magic
And I don't know how (don't know how)
But I know that I have it
And it all works out (and it all works out)

Some call it magic (some call it magic)
The things I see (the things I can see yeah)
And I don't understand it (I don't understand it)
Why it happens to me (why it happens to me)
Some call it magic
And I don't know how (I don't know how)
But I know that I have it (know that I have it)
And it all works out (and it all works out)

I've got my family and my friends with me
They the only ones who knows my secret (some call it magic, magic)
Trynna find a way bring it out and say
That you know you're special and believe it
