## House of Heroes

What ever happened to the outlaw?  
Mighty men who were great and flawed  
What ever happened to the renegade?  
Modern man came and put him in a cage  
What ever happened to the pioneer  
Who faced the great unknown with a trembling fear?  
What ever happened to the hard and lean  
Cut their way through the world with a primal scream  
Yeah! Oh, pioneer  
Don't seem like a choice to me  
You can be safe or you can be free  
Oh, pioneer  
No law in the new frontier  
Keep you eyes open and your pistol near  
Welcome back to the neighborhood  
A few things should be understood  
'Round here I'm your only friend  
Your priest, your blood, your protection  
Open your eyes, it's us and them  
Cops still cheat and saints still sin  
But the hunger in our belly makes us hard and lean  
Cut our way through the world with a primal scream Oh, pioneer  
Don't seem like a choice to me  
You can be safe or you can be free  
Oh, pioneer  
No law in the new frontier  
Keep you eyes open and your pistol near  
I don't have no fear, I'm a...  
In a new frontier, I'm a...  
Keep your pistol near, I'm a...
