

Song for Noa

Bosson

Hey, hey, little princess
So tell me what is your secret
How do you make my whole world
Spin around on your own
Your eyes shine like a sunrise by the sea
Your smile is melting an iceberg inside of me
Your love is pure as the water fresh from the spring
That is why you're making this world
A much more beautiful place
And I am thankful for every new day
I get to be with you, I get to be with you
Hey, hey, little princess
So let me tell you a secret
You are the star in the universe for me
Innocent as a landscape covered with snow
A colorful mind like a rainbow you've got it too
Your heart is strong as a mountain and warm like the sun
That is why you're making this world
A much more beautiful place
And I am thankful for every new day
I get to be with you
That is why you're making this world
A much more beautiful place
And I am thankful for every new day
I get to be with you, I get to be with you
All the people that surround you, the people that you meet
Are falling like leaves from a September tree
When the sky is dark and cloudy and gray
You're the candlelight, I see it's shinning for me
It's shinning for me, it's shinning for me
Yeah, it's shinning for me
That is why you're making this world
A much more beautiful place
And I am thankful for every new day with you
And this one is for you, for you, I get to be with you
