

# High Rotations

## Jagwar Ma

I don't want all your friends  
I don't need all your friends  
I don't need you to tell  
I don't want all your friends  
I can get everything from... within.I'll look between every gap... you have.  
I'll look between every gap you have,  
You have... you have.I got no impression you were gone, oh.  
I got no impression you were... see?If you look between your answer will blow  
If you look between your answer will blow  
If you look between your answer will blow
