## Karate High School

This place looks familiar  
Feels like I've been here before  
But Im really not too sure  
but now  
im asking, im asking, im asking  
is it even possible  
to forget what i've learned before  
and have to do it all again  
back to the start where it all began andi should have told you from the get go  
i should have looked for something unconventionaltwice upon a time  
we made the same mistake  
and fell so far behind  
i thought that i knew better than thatcan you help me forget  
i dont want to remember  
all the mistakes i now regret  
and now im waiting, im waiting, im waiting  
for the day that i learn  
that dreaming someone else's  
dream is never the answer  
but it's nobodys fault but my owni should have told you from the get go  
i should have looked for something unconventionaltwice upon a time  
we made the same mistake  
and fell so far behind  
i thought that i knew better than thatarent we all  
looking for something  
unconventional  
hoping for a second chance  
to start over againnext time ill give it 110%
