

Blue Spotted Tail

Fleet Foxes

Why in the night sky are the lights hung?
Why is the earth moving 'round the sun?
Floating in the vacuum with no purpose, not one
Why in the night sky are the lights hung? Why is life made only for to end?
Why do I do all this waiting then?
Why this frightened part of me that's fated to pretend?
Why is life made only for to end? In the city only for a while
Here to face the fortune and the bile
I heard you on the radio, I couldn't help but smile
In the city only for a while Why in the night sky are the lights hung?
Why is the earth moving 'round the sun?
Floating in the vacuum with no purpose, not one
Why in the night sky are the lights hung?
