

Eve

Jimmy Somerville

Eve is a redhead a ring of fire
She is seven deadly sins
Some man's woman, one man's daughter
But another's baby doll
She's dancing as fast as she can
But there's trouble in paradise
She's dancing as fast as she can
But there's trouble in paradise
Eve wants to sleep but seldom does
Lives the other side of midnight
Eve's got something for everyone
When they come she calls it loving
She's dancing as fast as she can
But there's trouble in paradise
She's dancing as fast as she can
But there's trouble in paradise
She's dancing as fast as she can
But there's trouble in paradise
She's dancing as fast as she can
On a clear day she can see forever
The threshold of one more time
She's dancing as fast as she can
But there's trouble in paradise
She's dancing as fast as she can
But there's trouble in paradise
She's dancing as fast as she can
But there's trouble in paradise
Trouble in paradise
Trouble in paradise
Trouble in paradise
Trouble in paradise
Trouble in paradise
Trouble in paradise
Trouble
