

# Fakey Fake

## Earlimart

Always been down with one of them too  
You were the fake and I was the fool  
But you were too young to know all the rules  
So I was the fake and you were the foolSomething undone, words went unsung  
I'll never be clean, you know what I mean  
But you were too young to know all the rules  
So I was the fake and you were the foolSomething that's warm, something that's good  
Can never be free, not that it should  
Something that's warm, something that's good  
Can never be free, not that it should
