

# Run Away

## La Fabrica

Surrounded by a thousand eyes  
The strangers in the night  
A city full of broken hearts  
Burning like white light  
The streets are filled of promises  
You never get to keep  
The streets are full of dreamers  
Walking in their sleep  
You come to me for easy lovin'  
Starlight in your eyes  
Don't you know it's all or nothin'  
Leave before you cry  
Run, run away  
Run, run away  
You never liked what daddy said  
He never understands  
The heartaches of a little girl  
Who needs a magic man  
Young hearts chasing images

Along the boulevards  
Young hearts lose their innocence  
Reaching after stars  
You come to me for easy lovin'  
Starlight in your eyes  
Don't you know it's all or nothin'  
Leave before you cry  
Yeah  
Run, run away  
Run, run away  
Run away  
(Run, run away)  
Better run away  
(Run, run away)  
Better run away  
(Run, run away)  
Run away, run away  
Run away, run away
