

# Time to Fall

## Radio Birdman

Woke up alone, I ain't got nothin' to lose  
Over at your house, there's nothin' on nothin' to do  
Take the back of the TV circuits there for you  
Run dry fingers between the dusty tubes You try to forget it and once again you'll see  
A man from the east is gonna have to leave  
The tubes glow and then they come alive  
The tubes glow across a million miles You try to get away but they turn to the heat  
First you burn and then you're gonna freeze forever  
I will not give, I will not give  
I will not give in for them, oh no Abandoned by men, they lived and died  
Alone half dead and crazy left behind  
Sun's all dying up in darkened sky  
Land of truth, land of eternal ice You know the living eyes are still up here  
They watch forever with endless frozen stares  
And you ask me why I'm not hanging 'round  
My heart is lying up on Arctic ground You try to get away but they turn on the heat  
First you burn and then you're gonna freeze forever  
But I will not give, I will not give  
I will not give in for them, oh no You try to get away but they turn on the heat  
First you burn and then you're gonna freeze forever  
But I will not give, I will not give  
And I will not give in for them, oh no
