

# I Am the Message

## Fightstar

We'll take our virtues up in arms  
To save ourselves  
Tonight I'll fight and friends will stand here  
And die with usHalo, you mean nothing to me  
Angel, you mean nothing to meIf I am the message  
Then you are the machine  
If I am the message  
Then you are the machineWe'll wear our scars above our arms  
And covered up  
Should we keep this open ending  
Just for usHalo, you mean nothing to me  
Angel, you mean nothing to meIf I am the message  
Then you are the machine  
If I am the message  
Then you are the machineJust take a look at yourself  
You see reflections in all of your impurities  
The taste, the taste of a burnt tongueIf I am the message  
Then you are the machine  
If I am the message  
Then you are the machineYou mean nothing to me  
You mean nothing to me
