

# Lipstick (feat. Tyga)

## Isac Elliot

Remember, you had me falling for you  
Like it's September  
You know I've been all over girl  
But I never  
Had seen somebody do the things that you do, do  
So help me,  
The way I think about you  
You know it ain't healthy  
I can't erase the mark you made  
When you left me  
And now you're stuck on me just like a tattooOne step closer  
Anywhere you go, I'll follow baby  
Can't get over  
Every time I close my eyes I see yourLipstick, I can't believe that's all she left me with  
She stole my heart and then she ran with it  
Leaving me nothing but that last kiss  
And a little bit of lipstickRight now, you're probably halfway to another town  
If you can hear me baby, turn around  
And give me more than just another kiss  
And a little bit of lipstickLately, you're taking up the spotlight in my day dreams  
I'm tryina keep it cool, but I keep feeling  
And everything I do reminds me of you, youOne step closer Anywhere you go, I'll follow baby  
Can't get over Every time I close my eyes I see yourLipstick, I can't believe that's all she left me with  
She stole my heart and then she ran with it  
Leaving me nothing but that last kiss And a little bit of lipstickRight now, you're probably halfway to another town  
If you can hear me baby, turn around  
And give me more than just another kiss  
And a little bit of lipstickOh, oh, oh, yeah  
Come back, I'm ready for you  
Come back, I want you  
Come back,I'm ready for you  
Come back, I want youYeah it makes your lipstick that's really rude  
Your mom, your friends, they believe me too  
I need you, but you need me too  
You know I got that sauce for your bbq  
Yeah I got that sauce, got the sauce on them  
Every time I eat I gotta floss on em  
Singing on the head, I gotta talk on it

Hardwood floors, baby girl we could ball on them  
Saying I record too much, should love this song  
And I don't talk when you in the club all night, no  
Do your thang, it does me no harm  
Just gimme your love baby, we alright  
Lipstick, I can't believe that's all she left me with  
She stole my heart and then she ran with it  
Leaving me nothing but that last kiss  
And a little bit of lipstick  
Right now, you're probably halfway to another town  
If you can hear me baby, turn around  
And give me more than just another kiss  
And a little bit of lipstick  
Oh, oh, oh, yeah  
Come back, I'm ready for you  
Come back, I want you  
Come back, I'm ready for you  
Come back, I want you
