

Friend Hospital

Nada Surf

We are travelling daily by the hour
Moods clouding mountains ideas like towers
Choosing sides, digging in, then changing
Hearts and minds are chafing from all the rearranging
So much better that we're not together
Cause I will not lose you
Or be the blues to you

Friend hospital
Wild sadness knew weakness
I wish the sun would come through the walls
And find you where ever when you call
Give you the time and the will that you want
When you finally learn you can't always get what you haul
So much better that we're not together
Cause I will not lose you
Or be the blues to you
Friend hospital
Wild sadness knew weakness

Wild sadness knew weakness
Awkward limo, fantastic cemetery
Reading from a list of your greatest hits
You're dropping them all the time
It's like landing on my favorite planet
When you're crackling through the line
So glad you called
Sharp advice saves my life
So much better that we're not together
Cause I will not lose you
Or be the blues to you
Friend hospital
Wild sadness knew weakness
Wild sadness knew weakness
Wild sadness knew weakness
Wild sadness knew weakness
