

# Good Enough

## Samiam

I don't care if it ain't that great  
It's all the same, it's good enough for me  
If you don't dwell on the details  
You might even like it, it's good enough for me  
Good enough for me, good enough for me  
Can you go anywhere without a host of preconceptions?  
You never been there before, nothing is going to surprise you  
If you give somebody a chance, they might give you something better to do  
You think you've seen it all because you've got a room with a view  
Five minutes and you've got your keys in  
your hand  
It's good enough for me, you always seem to be a little bit better  
But it's good enough for me, but it's good enough for me  
But it's good enough for me  
Can you do anything without shooting everybody down?  
You know you offend me but it never seems to bother you  
If you give somebody a chance, they might give you something better to do  
You think you've seen it all because you've got a room with a view  
I guess I don't know my place  
I guess I don't know my place  
I guess I don't know my place  
I guess I don't know my place  
I guess I don't know my place  
I guess I don't know my place  
I guess I don't know my place
