# Perfect (w/ Silence)

## Lifer

At one time close now somehow far
No more oppression, no more scabs
To heal or pick open again
Attention strayed from everythingAnd I will never believe you
And I don't think anything is true
And is anything for certain, can't take the place of you
But it takes the place of nothin'When everything is perfect
Why is everything so rotten?
Can't take the place of
Place of, place of, place of me and youTo think how some were wanting me
Up close to something wrong to me
If I confess you'll lie to me
Think of something wonderingAnd I will never believe you
And I don't think anything is true
And is anything for certain, can't take the place of you
But it takes the place of nothin'When everything is perfect
Why is everything so rotten?
Can't take the place of
Place of, place of, place of me and youAnd as I walk away from you
How can I, how can I look at you when I feel this way now?
How can I, how can I look at you when I'm pissed off somehow?
How can I, how can I look at you when I feel this way now?
How can I, how can I look at you when I'm pissed off some?
How can I, how can I look at you when I feel this way now?
How can I, how can I look at you when I'm pissed off somehow?
How can I, how can I look at you when I feel this way now?
How can I, how can I look at you when I'm pissed off somehow?
Somehow, some
