Stay

Auryn

Cuz I would go a thousand miles a day
Even if the sun don't shine my way.
And I'd keep pushing through so I can say
"There ain't nobody perfect,
But baby you're perfect for me."So stay ay stay ay (Need you to stay with me)
And I would walk a thousand miles to say:
"That I want you, want you;
I need you, need you to stay with me."I blame it on her lips, blame it on her face.
I know you were nervous when you let me in.
I promise that your heart will be better with me
And girl we both know that we ain't going nowhere.Cuz I would go a thousand miles a day
Even if the sun don't shine my way.
And I'd keep pushing through so I can say
"There ain't nobody perfect,
But baby you're perfect for me."So stay ay stay ay (need you to stay with me)
And I would walk a thousand miles to say:
"That I want you, want you;
I need you, need you to stay with me."
So stay ay stay ay (Need you to stay with me)
So stay ay stay ay (Baby you're perfect for me)
So stay ay stay ay (Need you to stay with)You got me runnin', runnin' round looking four your love.
You know I can't get enough.
And all it takes is one night, fallin' for your touch
And on and we go.I blame it on her lips, blame it on her face.
I know you were nervous then you let me in.
I promise that your heart will be better with me
And girl we both know that we ain't going nowhere.
