

Everything

Joe Sabolick

Everything You do makes me love You
Everything You say makes me move
Everything I need I find in You
That is why I sing this song to YOU

Everything You made is a wonder
Everything You are is so true
Everything I love I see in You That is why I sing this song to YOU

Nothing can compare
Words can never say
You are everything
Everything I need
Nothing can compare
Words can never say
You are everything
Everything I need
You are everything to me

Everything You do makes me love You
Everything You say makes me move
Everything I need I find in You
That is why I sing this song to YOU

Everything You made is a wonder
Everything You are is so true
Everything I love I see in You That is why I sing this song to YOU

Nothing can compare
Words can never say
You are everything
Everything I need
Nothing can compare
Words can never say
You are everything
Everything I need
You are everything to me

Everything
You are everything

Everything
You are everything to me
