

Bent

Matt Nathanson

If I bent like you said was best
Would that change a thing?
If I spend myself till nothing's left
Would you still leave me here? You're so sorry about it all now that it's over
Should I thank you for that, dear?
You're so sorry about it all
And I hope you'll always be Yes, I remember you best
Hating all the boys who got to you
And all the things they took that you'd kept for yourself
Every car crash, every misstep, every word You're so sorry about it all now that it's over
Should I thank you for that, dear?
You're so sorry about it all
And I hope you'll always be, always be I remember you best
Hating all the boys who got to you
And all the things they took from you again
It's all wrong, all wrong
It's all wrong, la, la, la, la, la You're so sorry about it all now that it's over
Should I thank you for that, dear?
You're so sorry about it all
And I hope you'll always be, always be Goodnight, farewell
Is this everything you wanted?
Is this everything you wanted?
Goodnight, farewell
Is this everything you wanted?
Is this everything you wanted now?
