

# This Lifeboat Is for Gold, Not People

## This Old Ghost

You were first to move on with your life  
Now you question the choices you made  
Are you thinking of what could have been? You're not desperate enough for a change  
But you crave a new song and a dance  
And you ain't got no help on the way  
Cause you gave up when things were okay There's a message I been trying to send  
You just holding a flame under what won't bend  
And you might be right things might have changed for good. Hey, slow down. It's a one time thing is what you  
said  
Well get in and get out and were done  
But you can't think of one reason why It's a job and a chore and a drag  
He's a mess and we know how it goes  
But you're always so set in your ways  
Well the right choice won't always feel great There's a message I've been trying to send  
You're just holding a flame under what won't bend  
And you might be right things might have changed for good. You might be right things might have changed  
We Learn from the past and change our ways  
No slow down  
It's my turn now
