Darlin', we were just starting out
But I can?t deny the someone I saw
Darlin', we were just starting out
Don?t like a sound with it, hope I did right
I won?t pretend
She was less than a friend
Together such a long time ago
Forgot how she made me feel so
Then out of the blue
God gave me you
And this is where my heart is at
And I?ll never look back
Darlin', we were just starting out
But I can?t deny the someone I saw
Darlin', we were just starting out
Don?t like a sound with it, hope I did right
Roll me once again
Are you [Incomprehensible] roll me once again
Soak, soak
Darlin', I?m sure
We?ve got something that's pure
And this is where our love will live
We?ve got so much to give
Roll me once again
Soak into your skin
With all my soul
I?m gonna take hold
Roll me once again
Soak into your skin
With all my soul
I?m gonna take hold
Roll me once again
Soak into your skin
With all my soul
I?m gonna take hold
Darlin', we were just starting out
But I can?t deny the someone I saw
Darlin', we were just starting out
Don?t like a sound with it, hope I did right

We were just starting, starting right here
We were just starting, starting right here
Roll me once again
Are you [Incomprehensible] roll me once again
Soak, soak
Roll me once again
Soak
