

Just In Case

Paulo Mendonca

Just in case you were another face sign these papers before it's too late
in the beginning when everything's fine you think about me baby all the time
Quarell here and a quarell there i think it happens everywhere you know
maybe one day i might fall apart so sign your name on the dotted line

Chorus:

Just in case our solid loving shakes Just in case my music never brakes
Verse2: Business business on the wall do i have the greatest power off them all
Money talks and you know what walks listen to me and i will set you free
I will protect by ruling over you figures and numbers is nothing that you wanna do
you don't like to be dumped on and you can't cope with all the people always telling you what to do.

CH:

Just in case our solid loving shakes
Just in case my music never brakes Verse3:
Just in case you were another face sign these papers before it's too late
in the beginning when everything's fine you think about me baby all the time
Quarell here and a quarell there i think it happens everywhere you know
maybe one day i might fall apart so sign your name on the dotted line
