

Nickel In The Well

Bryan White

Ive got a four leaf clover
I hung a horseshoe on the wall
I threw salt over my left shoulder
Ill try anything at all To get lucky with you
I want you so much
Until you want me too
I aint gonna give up Ill throw another nickel in the well
Tell myself this time maybe itll help
To make my dreams come true Ill make another wish upon a star
Just in case youre out in your backyard
Lookin' up there too With a lot of love and a little luck
Youll fall like I fell
Ill just cross my fingers
Throw another nickel in the well If I could get Houdini
Teach me a trick or two
Then maybe you would see me
In the way I want you to I'm gonna knock on wood
It aint been easy
Ive done everything I could
To make you need me Ill throw another nickel in the well
Tell myself this time maybe itll help
To make my dreams come true Ill make another wish upon a star
Just in case youre out in your backyard
Lookin' up there too With a lot of love and a little luck
Youll fall like I fell
Ill just cross my fingers
And throw another nickel in the well And with a lot of love and a little luck
Youll fall like I fell
Ill just cross my fingers
Throw another nickel in the well
Yeah, just cross my fingers
And throw another nickel in the well
