Wish I Could

Boomkat

I, I, I'm losing my mind
Without you 'cause
I, I've got to say
I know this isn't right
Can't take another fight in my life
I don't know what went wrong
I know we don't belong
It's killing me inside
I'm struggling to find
The strength to carry on
Need you to lean upon
I wish I could learn to live without you
When we're apart
I wish I could wake one day and have no pain
In my heart
I feel ashamed
'Cause I know I'm the only one to blame
I wish I could learn to live without you
When we're apart
I wish I could wake one day and have no pain
In my heart
I know this isn't right
Can't take another fight in my life
I don't know what went wrong
I know we don't belong
It's killing me inside
I'm struggling find
The strength to carry on
Need you to lean upon
So cut these strings above my life
Now I know
Without you I can still survive
I wish I could learn to live without you
When we're apart
I wish I could wake one day and have no pain
In my heart
I wish I could learn to live without you
When we're apart
I wish I could wake one day and have no pain

In my heart
I was blinded by you
And I'll always be reminded of you
