

# Coming Home

## Enrique Iglesias

Sometimes I feel I'm going nowhere  
I'm moving but I just can't find the way  
Surrounded by a million faces  
They all say, they're my best friends

Take another drink to hide the sorrow  
But come the morning, nothing's changed  
The concrete skies are rushing by me  
And this road is getting old

[Chorus:]

I don't wanna wait until it's over  
I don't wanna wait until it's gone  
I can't wait until tomorrow  
'Cause I been waiting for so long  
So baby I'm coming home, oh oh  
Baby I'm coming home

I heard the radio play your favorite song  
Made me think of everything we used to do  
There's so much we used to talk about  
And now I can't, even I say "I miss you", no

[Chorus]

So turn around, just turn around

[Chorus]

Baby I'm coming home, oh oh  
Baby I'm coming home...

---
