

# At Fate's Hands

## Fates Warning

Ours is the cry of the helpless, told  
in the timeless truth of the written word  
Trapped by the tempest of the blind  
our muted calls can't be heard  
Helpless as we stand  
amidst the push of thoughtless hands  
We are adrift without direction  
in a raging storm on a calm sea  
Clinging to our expectations  
to stem the tide of destiny  
Helpless as we fall  
beneath the crush of waters walls
