I'll Swing My Fists

Paddock Park

OH!
I'll paint this town red, with your murder.
This will be worth all my waiting.
Waiting for your lies, better off with out you.
Fuck I thought this would never end like this did.
Consequences will fall on your fucking marriage, I trust myself.
[Laughs]
Fuck. I knew this would always end who are we fucking kidding.
You can't hide behind your fake morality's and pride.
Fucking whore.
