

Japan Air

Anamanaguchi

Through the snow we're chasing
So fast my heart's racing
Flying down mountains so tallThey all try to keep up
While we fuck this shit up
So fast try not to fallWon't you ride with me?
Far away from the day
Break from the nighttime too
(Turn off the lights Let's go!)All I want to do
Is run away,
Jump on my board
And just spend time with youAnd in my heart
Don't think I want to celebrate without you here
With meAnd can you see it,
That I'm falling through the snow without you here?I thought I'd never be alone
Until you went awayThey all try to keep up
While we fuck this shit up
They all try to keep upThey all try to keep up
While we fuck this shit up(spoken)
Boy, you know I'm gonna treat you right
You're melting the ice around my heart
Hit me faster than a snowball
giggle
