

Cut Down (1997 Demo)

Control Denied

I see right through your mind
I see your kind, I know your game
Surviving on the soul of a song Please tell me how you escape
From the guilt that should eat at your mind
When you lay down to sleep
So many precious lives lost
Picking up the shattered dreams broken by you You'll be cut down to size when we're done with you
When you're cut down to size we will look down on you Why is life a game where we are forced to play
I think it's safe to assume
Don't feed off a loss or a win
The reward is to survive
