

Every Time I Turn Around

Joss Stone

I can't help it
Every conversation that I have
It's got me trapped
We're right back to where we started
Why, I can't stand it
I'm tryna get away from loving you
But that's no use
'Cos nothing that I ever seem to do is right
Right now I feel
I should do what's best for me
Even if it hurts so much
Think I'd better be so what
Every time I turn around
People always talking 'bout
They don't understand what they don't know
I wish they'd all leave me alone
Every time I turn around
Boy, there's always something 'bout cha
It's get away out of my control
And I don't want to be like this no more
I wish I had a dime
For every time you lied to me
I tried to leave
But something inside's pulling me
I don't like goodbyes
What could it be, it's just the irony
Someone I love this much just is right for me
Every time I turn around
People always talking 'bout
They don't understand what they don't know
I wish they'd all leave me alone
Every time I turn around
Boy, there's always something 'bout cha
It's get away out of my control
And I don't want to be like this no more??? want you taking any
All that I own
I never felt like this before, boy
All that I know
Is I don't wanna fall in love again
But oh boy, being with you was so able
That being without you, I just can't let go
Every time I turn around

People always talking 'bout
They don't understand what they don't know
I wish they'd all leave me alone
Every time I turn around
Boy, there's always something 'bout cha
It's get away out of my control
And I don't want to be like this no moreEvery time I turn around
(Every time)
People always talking 'bout
(People always talking 'bout me)
They don't understand what they don't know
I wish they'd all leave me alone
Every time I turn around
Boy, there's always something 'bout cha
It's get away out of my control
And I don't want to be like this no moreI don't wanna be, I don't wanna be...
