## The Anal Staircase

## **Coil**

And the angels kiss Our souls in bliss Measure the extent of a dizzying descent Down the Anal staircase. Put just one foot on the staircase And the next step you're down here On this face. And the rapids Of my heart Will tear your ship of live apart And we'll End up wrecked We'll end up at the start Of the Anal Staircase. And the angels kiss Our souls in bliss Measure the extent of a dizzying descent Down the Anal staircase. Take a hollowpoint revolver Shoot down the rapids Of your heart Blow the fucking Thing apart Blow the fucking Thing apart. One step Two step Three step Four Step.
