Surfboard

Bossacucanova

She caught up in that new California love
I'm the kid from out of town,
trying to get me so-o-o-o-o-ome
I ask her how her nights been
She said let's go for a night swim
And you know what she meant
OohSo come on, let the ocean take us away,
'Til we see the daylight come
And I know that it's getting late,
but we wanna stay
She on my surfboard board board
board board board board
She on my surfboard board board
board board board board
She on my surfboard board board
board board board board
She on my surf board, board
Go ride it, SurfboardSurfboardWe woke up on the beach down in Mexico
uh, uh, uh
She asked me how we got here
and I don't know-oh-oh-oh-oh-oh
We got back in the water
The waves were crashing on her
And you know how it goes
OohSo come on, let the ocean take us away,
'Til we see the daylight come
And I know that it's getting late,
but we wanna stay
She on my surfboard board board
board board board board
She on my surfboard board board
board board board board
She on my surfboard board board
board board board board
She on my surfboard, board
Go ride it, SurfboardSurfboardSummer lust on a summer dust
She told 'em girls can't surf with us
Surf with us, you can't surf with us
Salts on her skin, lef

t me waitin' more, on the shore
Lo-love beach boys like 64, 64
Go and ride on mySurfboard board board
board board board board
She on my surfboard board board
board board board board
She on my surfboard board board
board board board board
She on my surfboard, board
Go ride it, SurfboardSurfboard
