When Tom Cruise Cries

The Rakes

I wake up,
Didn't know what was going on,
Pictures of home,
Repeated again and again,

Electrical problems,
What they said on CNN,
Electrical problems,
Repeated again and again,

I tried to call your phone,
But the network was down,
Something's happening,
There was no one around,
So I tried your friends, but
their not answering,
Just pick up the phone,
Tell me your okay, just a text anyway,
What's happening?
I try your friends,but their not answering,

Oh what do yours constitute with sparked,
Lights were out I couldn't tell if you were on,
TV's on, Tom Cruise crying on his father's bed,
Reminds me what that French guy said,
From news to movies all the crap with it,
Headlines keep you excited,
Like when Tom Cruise cries,
It's all lies,

I tried to call your phone,
But the network was down,
Something's happening,
There was no one around,
So I tried your friends, but their not answering,
Just pick up the phone,
Tell me your okay, just a text anyway,
What's happening?
I try your friends, but their not answering,

[Repeat: x4]
I tried to call your phone,
But the networks down,
Are you just not answering?
