

# One Of The Guys

**Terri Clark**

Hood up, bent over that carborator  
I skinned my knuckle  
    Damn that hurt  
Got a 6 pack chillin'  
    On ice for later  
And grease all over my white t-shirt  
    My brother taught me how  
        To throw a curve ball  
The cheer leadin' thing never felt quite right  
    When it comes to high fashion  
        I hit a brick wall  
This girl's just one of the guys  
    You can dress me up  
        But it won't change  
The way I walk against the grain  
    I can rock your world  
        And if my mood is right  
        You can take me home  
        But I'm gonna drive  
'Cause this girls just one of the guys  
    I can throw darts, talk about fishin'  
    Tell a dirty joke and watch nascar  
    I can help you with your love life  
        And tell you 'bout women  
        Drink you under the table  
            At your favorite bar  
            You can dress me up  
            But it won't change  
The way I walk against the grain  
    I can rock your world  
        And if my mood is right  
        You can take me home  
        But I'm gonna drive  
'Cause this girls just one of the guys  
    I'm still a lady  
    Lookin' for the right man  
        But he's gotta take me  
        Just the way I am  
    'Cause you can dress me up

But it won't change  
The way I walk against the grain  
I can rock your world  
And if my mood is right  
After the game on Monday night  
'Cause this girl's just one of the guys  
Yeah this girl's just one of the guys  
Hey
